

Praising/Adoring – Giver of Light

All praise to God, the giver of light!
We give thanks for the sun, whose rays give life,
 and the moon, which illuminates our darkest nights.
Praise for fire, the flickering flames of candles and lamps.
We give thanks for electric light
 that twinkles around the world, shining into space.
Thank you for starlight, which travels light years,
 and for lasers, which circle the globe in fiber-optic cables.
You give us light, which is bright and serviceable and pure.
We cannot live without light.
Thank you especially for this good news:
 the Light of the world is Jesus.
